

MD RAKIB MOSTOFA

Frontend-focused Full-Stack / Product Engineer

Chemnitz, Germany | +49 163 0815732 | rakibronicse@gmail.com | rakibmostofa.dev | [LinkedIn](#) | [GitHub](#)

PROFILE

Frontend-focused Full-Stack / Product Engineer with professional experience building web, mobile and marketplace products. Strong in React, Next.js, React Native and TypeScript, with hands-on experience across authentication, payments, analytics, REST APIs, state management, CI/CD and Docker-based delivery. Experienced in migrating React applications to Next.js, integrating frontend systems with Go and NestJS services, and shipping production features across web and mobile.

CORE SKILLS

Frontend:	React.js, Next.js, React Native, TypeScript, JavaScript, Tailwind CSS, Bootstrap
State & Data:	Redux Toolkit, RTK Query, Context API, REST APIs
Backend:	Node.js, NestJS, Go / Gin, PHP (Laravel, Symfony, CodeIgniter)
Data:	PostgreSQL, MySQL, Elasticsearch
Platform & Delivery:	Docker, GitHub Actions, GitLab CI/CD, Microservices, Git
Product Integrations:	Stripe Connect, GA4, Google Ads / AdMob, Firebase, third-party APIs

PROFESSIONAL EXPERIENCE

Frontend / Full-Stack Developer | SCC Group

04/2024 – Present

Chemnitz, Germany

- Develop and maintain production web and mobile products using React, Next.js, React Native and TypeScript across social-network and marketplace experiences.
- Contribute to the migration of React SPA functionality to Next.js App Router, improving server-rendered pages, SEO readiness, routing and maintainability.
- Build and integrate authentication flows across web and mobile, including token refresh, cross-application session handling and security improvements.
- Integrate marketplace capabilities including seller profiles, product/listing flows, Stripe Connect onboarding and checkout-related functionality.
- Work with Go/Gin and NestJS microservice APIs, PostgreSQL and Elasticsearch-backed product/search features.
- Implement and troubleshoot analytics, consent and monetization integrations including GA4, Google Ads/AdMob, Firebase notifications and third-party services.
- Improve delivery quality through GitHub Actions, linting/type checks, CI/CD workflows and Docker-based deployments.

Full-Stack Developer | Mailingwork GmbH

02/2022 – 10/2023

Chemnitz, Germany

- Developed features and resolved defects for an email-marketing platform using modern web technologies.
- Built and maintained microsites and landing pages for marketing campaigns.
- Reduced support effort through technical troubleshooting documentation and worked in an agile eight-person team.

Full-Stack Developer Intern | Curawork GmbH

09/2021 – 02/2022

Chemnitz, Germany

- Supported development and optimization of a career platform and handled user data in GDPR-aware workflows.
- Contributed to implementation and project planning with cross-functional team members.

Web Developer | ATI Limited

01/2015 – 03/2019

Dhaka, Bangladesh

- Developed backend services and APIs with PHP and Node.js for enterprise applications.
- Designed and implemented ERP modules covering admissions, courses, examinations, payments, inventory and HR.
- Implemented role-based access control and contributed to project coordination and technical documentation.
